Entity Name: STOWAGE-AREA-NO-LOAD
 Definition: A KIND OF STOWAGE-AREA-CONSTRAINT THAT REPRESENTS A SEGMENT OF A STOWAGE- AREA IN
              WHICH CARGO MAY NOT BE STOWED.
Attribute Names:
                                                                                       (PK) (FK) (15110) (1)
    SHIP IDENTIFIER

                                                                                                              (A)
    WAVE-SPECTRUM MAXIMUM SLOPE LENGTH SPECTRAL DENSITY QUANTITY
                                                                                                  (19742) (1)
                                                                                                              (A)
                                                                                                  (19739) (1) (A)
    WAVE-SPECTRUM MAXIMUM SLOPE SPECTRAL DENSITY BAND IDENTIFIER
                                                                                                  (19605)
    WAVE-SPECTRUM MAXIMUM WAVE HEIGHT DIMENSION
                                                                                                          (1)
                                                                                                              (A)
                                                                                                  (19634) (1) (A)
    WAVE-SPECTRUM MEAN WAVE PERIOD QUANTITY
                                                                                                  (19630) (1) (A)
    WAVE-SPECTRUM MEAN WAVELENGTH DIMENSION
    WAVE-SPECTRUM SAMPLE LENGTH DIMENSION
                                                                                                  (19732) (1)
                                                                                                              (A)
                                                                                                  (19635) (1)
    WAVE-SPECTRUM SAMPLE PERIOD QUANTITY
                                                                                                              (A)
    WAVE-SPECTRUM SIGNIFICANT WAVE HEIGHT DIMENSION
                                                                                                  (19731) (1)
                                                                                                              (A)
                                                                                                  (19619) (1) (A)
    WAVE-SPECTRUM SLOPE MEAN WAVE PERIOD QUANTITY
                                                                                                  (19627) (1)
    WAVE-SPECTRUM SLOPE MEAN WAVELENGTH DIMENSION
                                                                                                              (A)
                                                                                                  (19624) (1) (A)
    WAVE-SPECTRUM SLOPE PEAK PERIOD QUANTITY
                                                                                                  (19621) (1)
    WAVE-SPECTRUM SLOPE PEAK WAVELENGTH DIMENSION
                                                                                                              (A)
    WAVE-SPECTRUM SLOPE SIGNIFICANT WAVE HEIGHT DIMENSION
                                                                                                  (19611) (1)
                                                                                                              (A)
                                                                                                  (19602) (1) (A)
    WAVE-SPECTRUM WAVE DIRECTION ANGLE
                                                                                                  (3933) (1)
                                                                                                              (A)
Entity Name: WAVE-SPECTRUM-BAND
 Definition: A SET OF WAVE PROPERTIES DESCRIBING WAVES WITHIN A RANGE OF FREQUENCIES OR WAVE N
             UMBERS WHICH IS A SUBSET OF THE TOTAL WAVE SPECTRUM.
                                                                                       (PK) (FK) (18207) (2) (A)
    GEOPHYSICAL-POINT-OBSERVATION DATE
    GEOPHYSICAL-POINT-OBSERVATION LATITUDE COORDINATE
                                                                                       (PK) (FK) (18684) (3) (A)
                                                                                       (PK) (FK) (18685) (3)
    GEOPHYSICAL-POINT-OBSERVATION LONGITUDE COORDINATE
                                                                                                              (A)
                                                                                                  (18549) (2)
    GEOPHYSICAL-POINT-OBSERVATION TIME
                                                                                       (PK)
                                                                                            (FK)
                                                                                                              (A)
                                                                                                  (19467) (1)
                                                                                       (PK)
                                                                                                              (A)
    WAVE-SPECTRUM-BAND IDENTIFIER
    WAVE-SPECTRUM-BAND CENTER FREQUENCY RATE
                                                                                                  (19468) (2)
                                                                                                              (A)
    WAVE-SPECTRUM-BAND CENTER WAVE NUMBER RATE
                                                                                                  (19747) (2)
                                                                                                              (A)
                                                                                                  (19471) (2)
                                                                                                              (A)
    WAVE-SPECTRUM-BAND FIRST POLAR COORDINATE
                                                                                                  (19474) (2)
    WAVE-SPECTRUM-BAND HEAVE FREQUENCY SPECTRAL DENSITY RATE
                                                                                                              (A)
    WAVE-SPECTRUM-BAND HEAVE WAVE NUMBER SPECTRAL DENSITY RATE
                                                                                                  (19748)
                                                                                                          (2)
                                                                                                              (A)
                                                                                                  (19473) (1)
    WAVE-SPECTRUM-BAND MEAN WAVE DIRECTION ANGLE
                                                                                                              (A)
                                                                                                  (19478) (2)
    WAVE-SPECTRUM-BAND SECOND POLAR COORDINATE
                                                                                                              (A)
    WAVE-SPECTRUM-BAND SLOPE FREQUENCY SPECTRAL DENSITY RATE
                                                                                                  (19479)
                                                                                                         (2)
                                                                                                              (A)
    WAVE-SPECTRUM-BAND SLOPE WAVE NUMBER SPECTRAL DENSITY RATE
                                                                                                  (19749)
                                                                                                          (2)
                                                                                                              (A)
    WAVE-SPECTRUM-BAND WAVE PRINCIPAL DIRECTION ANGLE
                                                                                                  (19477) (2)
                                                                                                              (A)
                                                                                                  (3938) (1)
Entity Name: WAVE-SPECTRUM-FORECAST
                                                                                                              (A)
 Definition: A FORECAST OF WAVE SPECTRAL PARAMETERS.
Attribute Names:
                                                                                                  (47400) (1)
    GEOPHYSICAL-ANALYSIS-FORECAST BASE REFERENCE CALENDAR DATE
                                                                                       (PK) (FK)
                                                                                                              (A)
    GEOPHYSICAL-ANALYSIS-FORECAST BASE REFERENCE TIME
                                                                                       (PK)
                                                                                            (FK)
                                                                                                  (36829) (1)
                                                                                                              (A)
    GEOPHYSICAL-ANALYSIS-FORECAST FORECAST PERIOD QUANTITY
